# Youth housing data in Miami-Dade County

**15,000**

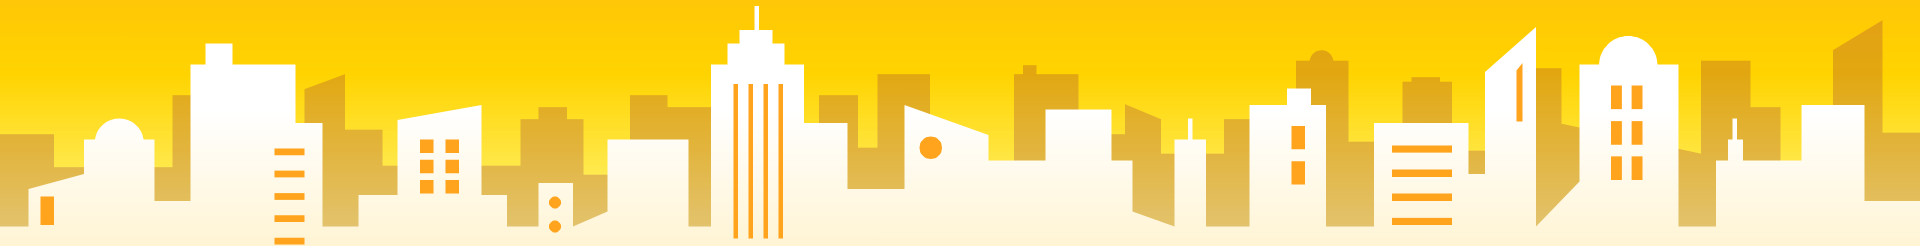

- **Estimated number of K-12 students experiencing housing instability in MDCPS.**

**400**

- **Estimated number of young people, between the aged of 13-24, in Miami-Dade County experiencing homelessness.**

**“It’s hard out here – we  
can’t find a good place  
to afford.”**

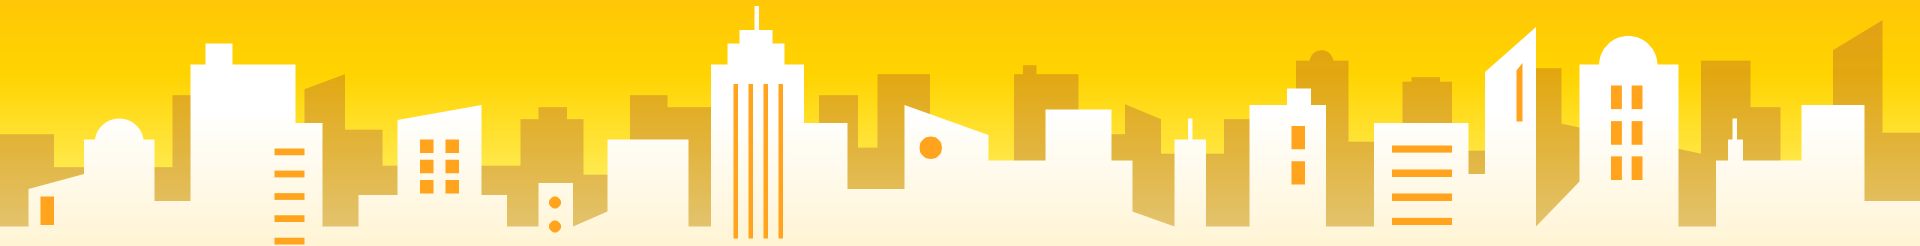

**- HOMY YVAC member**

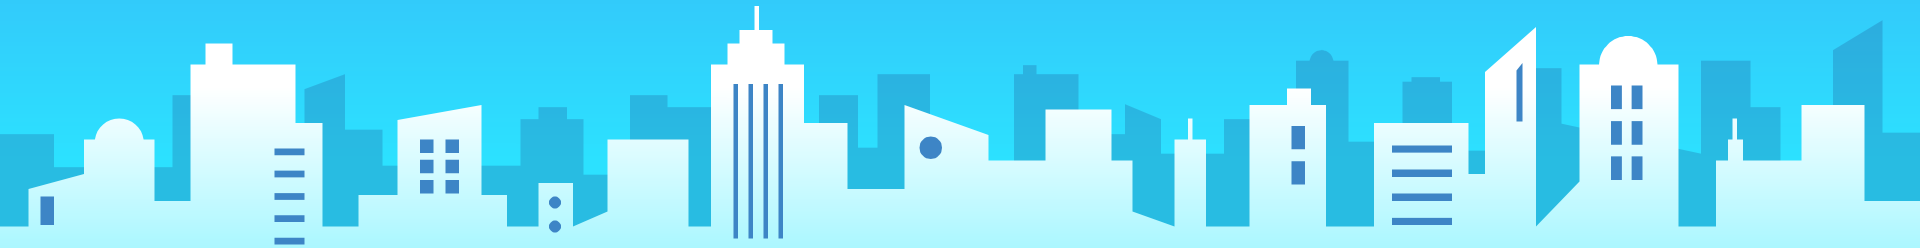

# **Root causes of youth homelessness**

- **Economic problems.**
- **Transitioning from public systems.**
- **Family problems.**

**15 DAYS IS NOT ENOUGH!**

# **Prevent Youth Homelessness by Extending Notice Requirements in Miami- Dade County**

## **Why extend the notice requirements?**

- **Many of our residents' housing is month-to-month.**
- **Extending the notice is not adding an extra burden to landlords.**
- **This may prevent a young person from ruining their credit.**
- **Other municipalities are already doing it!**
- **This can prevent homelessness.**

The background of the slide features a stylized city skyline at the bottom, composed of various geometric shapes representing buildings in shades of light blue and white. Above the skyline, the background is a solid blue color, decorated with several stylized, light blue clouds of different sizes and shapes. The text is centered in the upper half of the slide.

**I commit to:**

**Creating an action plan to bring in stakeholders.**

**Convening the Youth Voice Action Council + The HOMY Collective.**

**What you can do:**

**1. Join HOMY!**

**2. Support this effort by talking to Miami-Dade County's elected officials.**

# THANK YOU!
